

Smart Chatbot Output

The screenshot shows a Google Colab notebook titled 'Untitled2.ipynb'. The interface includes a top bar with navigation icons, a toolbar with 'File', 'Edit', 'View', 'Insert', 'Runtime', 'Tools', and 'Help', and a 'Share' button. The main area displays a conversation with Gemini. The user's prompt is: 'I'm sorry, but "A1a5sy80K7FwW_6Lp0pY9:6lq0l6cKShat" does not seem to be a question I can answer based on the provide'. Gemini's response is a detailed bio of Bhuvaneshwari Kandasapan, including her name, favorite food (Biryani), college (Rajalakshmi Engineering College), role model (Dr. APJ Abdul Kalam), father's work (farmer), favorite animal (dog), and skills (Web development, AI, IoT, Quick learner, Self-motivated).

```

I'm sorry, but "A1a5sy80K7FwW_6Lp0pY9:6lq0l6cKShat" does not seem to be a question I can answer based on the provide

"""
